NOVA

A NEW CELESTIAL INSPIRED LIGHTING COLLECTION

Nova, from British lighting brand J. Adams & Co. is a new captivating collection of glass pendant lights with striking, modernist aesthetics and a Deco edge.

In three elegant shapes, Nova's celestial inspired silhouettes explore spherical form and the sculptural possibilities of mouth blown glass. Chosen for its porcelain-like texture, the opaline, sandblasted glass shades provide a warm diffused illumination when lit, creating a soft and ethereal atmosphere.

Appearing to pierce through the glass shades, a lustrous tapered stem with Deco inspired stepped detailing anchor the designs and incorporates the brand's signature use of solid machined brass.

A unique and statement lighting feature grouped in a uniform row, hung at varying heights over a kitchen counter or dining room table or as a single pendant, Nova's orb like forms make a compelling addition to any contemporary interior.

Available in an Antique Brass or Dark Bronze solid brass finish and in three shapes: Round - a 30cm diameter globe, Wide - a 42cm diameter saucer and Tall - a 24cm diameter lantern; the new Nova collection will launch in October 2020.
